

U&ME

Verse 1

You and me in the backyard
String lights drowning out starry eyes
My things packed up in your car

Oh I meant to get this buzzed
Cause the good life don't wait for shy girls
I wanna have more of your fun

Chorus

Hands off keep making me fight for you
My mind a tunnel led straight to tonight
I'm gonna end this right

Your type, I haven't thought over yet
I want you stuck inside of my head
Forever and ever, oh man

Verse 2

You and me in the backseat
Fingers graze till my heart breaks
From aching on your street, I'm where I'm meant to be

My lips to your taste
Get me to the point i know
I'd abandon the last train
Your place till daybreak

Chorus

Hands on, keep me o-occupied
My mind a tunnel led straight to tonight
I'm gonna end this right

Your type, I'll never get over yeah

I want you stuck inside of my head
Forever and ever, oh man

Bridge

After noon I'm
Not alone yet
There is no weight on my chest
Baby just breakfast in bed

Can I have one more evening?

(Now this living)

No more pulling strings, it's just the real thing
And there's no comparison

Outro

After noon I'm
Not alone yet
There is no weight on my chest
Baby just breakfast in bed

Ooh can I have one more...

In the backyard
In the backseat
Please give me one more evening
Baby for my daydreams
